## COPY ME - The Existential being of non-life

**Copy Me is an Bio-Technical, existential exploration of myself and the future of non-living organisms.**

Without a breath you cannot survive. The breath is an indicator of your wellbeing, it's necessary for your survival and it can tell us a lot about your state of being. I will create a non-living organism that resembles my life and copy's my own existing in a minimalistic manner. As this non-living organism comes out of me I divided it's story into 5 parts starting with my own life.

**I divided my project into 5 stages including my creative proces**

1. Discovery of sexuality
2. Searching for the right mate(s)
3. Pregnancy
4. Birth
5. Non-life

matthijstheblock First test of organic  
leather -worldasorganism-  
sumrealent How is leather not organic?  
moonlightpaintings71 ;Woww!

m.couronne Nice, so this is made from  
fungi? 🍄

matthijstheblock @m.couronne no it's  
made by a colony of bacteria and yeast!

dariazaks 🍄😄😄😄😄

nivel\_ken Wow! 🎉
